

Renderplas

PVC_U BEADING FOR RENDERING, PLASTERING & DRYLINING APPLICATIONS

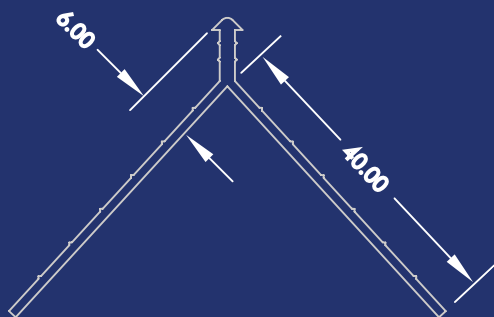

CORNER BEADS

RCB4

RCB6

APPLICATION:

On all plastered or rendered corners and reveals to ensure a straight arris and to offer protection against impact.

CUTTING TO LENGTH:

Use fine toothed hacksaw or tin snips. PVC Pipe Weld adhesive can be used for butt joints.

COLOUR:

Currently stocked in the colour Sand (cream). Although upon request a range of colours are available (see the website). All Renderplas Beads are paint and texture friendly.

STORAGE:

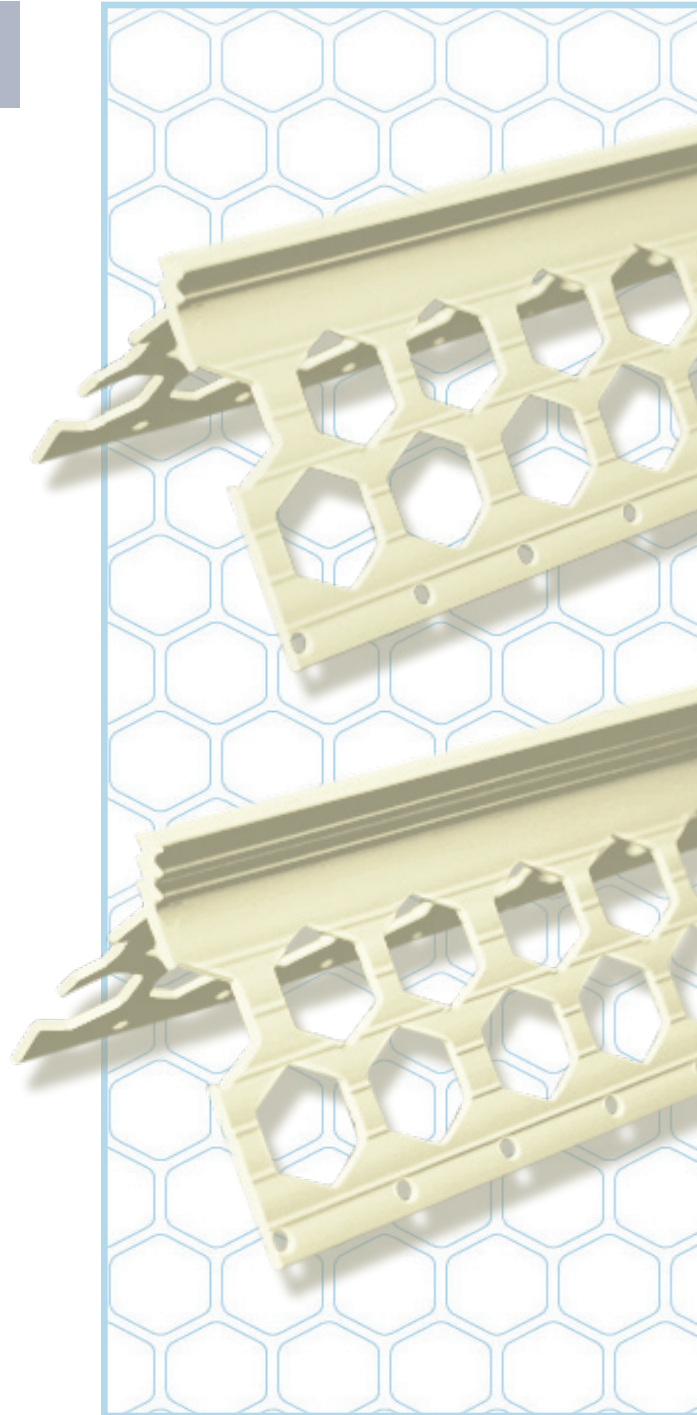

Store flat away from heat and direct sun.

FIXING:

Plumb straight and embed in a continuous line of adhesive mortar. If mechanical fasteners are used, these must be stainless for thin coat applications, care being taken not to distort the bead.

PACKING:

25 no. x 2.5m lengths in boxes (total 62.5lm).
25 no. x 3.0m lengths in boxes (total 75.0lm).
